EXPERIENCE

Hawai'i Space Flight Laboratory

Neutron-2: Chief Engineer

Honolulu, HI

January 2025 - Present

- Reviewed and validated system diagrams, technical requirements, and subsystem budgets to ensure design compliance and mission feasibility.
- Led team meetings and technical discussions while delegating roles and tasks to ensure project milestones were met.
- Provided assistance to team members to resolve technical challenges and remove project roadblocks.

EPET Program - College of Engineering

AERIS: Chief Engineer

Honolulu, HI

January 2025 - Present

- As a student-led mission, AERIS empowers team members with full leadership responsibility, defining our own tasks, schedules, and deliverables.
- Conducted training sessions on engineering software platforms and managed license utilization across the team.
- Leads team meetings and participates in high-level project discussions to coordinate mission progress and strategy.

Hawai'i Space Grant Consortium

Undergraduate Research Intern

Honolulu, HI

August 2025 - Present

- Integrated and tested satellite hardware to achieve full operational capability.
- Contributing to the development of an open-source CubeSat kit through the design and integration of its radio communications subsystem.
- Investigating the root cause of packet loss within the radio's communication firmware to improve downlink reliability.

College of Engineering

Undergraduate Research Assistance

Honolulu, HI

January 2025 - May 2025

- Assisted in developing a Finite Element Analysis (FEA) model using the Rust programming language.

EPET Program - College of Engineering

NASA Cosmic Challenge Advisor

Honolulu, HI

August 2025 - Present

- Mentors undergraduate students through the engineering design process, providing guidance on system integration and project development.

American Institute for Aeronautics and Astronautics Student Branch at UH Manoa Honolulu, HI

President

May 2025 - Present

- Plan events for student member within the branch
- Develop professional connections for the club
- Promote club image to the public and help outreach to K-12

PROJECTS

Neutron-2 Solidworks, STK, ThermalDesktop, MatLab, MBSE: Capella

<https://www.hsfl.hawaii.edu/missions/neutron-2/>

3U CubeSat mission funded by the University Nanosatellite Program, supported by AFRL's Small Satellite Portfolio.

AERIS SolidWorks, STK, ThermalDesktop, MatLab, Capella

<https://www.hawaii.edu/news/2023/04/25/student-team-develop-cubesat/>

6U CubeSat mission selected under NASA's CubeSat Launch Initiative (CSLI), inherited from the EPET program (formerly VIA-SEEs).

RoSE SolidWorks

<https://www.hsfl.hawaii.edu/planetary-surface-robots/>

A rover project under the NASA Mars Rover Challenge

SKILLS

Hardware Skills:	Additive Manufacturing, Soldering, Welding, Woodwork
Software:	CAD, STK, ThermalDesktop, D2S2, Office, Capella
Programming Languages:	MATLAB, Java, Python, C++, HTML

TRAVEL

SmallSat- Salt Lake City, UT	HSFL
Attended the SmallSat Conference to present the Neutron-2 Preliminary Mission Review (PMR) to University Nanosatellite Program (UNP) advisors.	August 2025

emergen Conference - Maui, HI	Maui Economic Development Board
Awarded a scholarship to attend the Emergen Conference in Maui, HI; engaged in discussions on Space Domain Awareness (SDA), Space Situational Awareness (SSA), and sustainable space workforce development.	
September 2025	

AMOS Conference - Maui, HI	HSFL
Attended the AMOS Conference to present the Neutron-2 mission to vendors and professionals in the optical systems industry.	September 2025

EDUCATION

University of Hawaii at Manoa	Honolulu, HI
August 2022 - Present	

Thunderridge High School	Highlands Ranch, CO
August 2018 - May 2022
